PROFILE

A driven B.Tech CSE student at Bennett University and the Secretary of the Financo Club, I bring hands-on experience in backend development, data analytics, and tech-based event coordination. With a strong foundation in Java, Python, C++, and SQL, I've led impactful student projects and workshops, including initiatives promoting financial literacy and smart tech solutions. Passionate about solving real-world problems, I thrive in team settings and aim to blend technical knowledge with creativity to build meaningful solutions.
